

## Grand<sup>1</sup> Tree Protection Detail<sup>2</sup>

**A:**

Chain link must be used for grand tree protection

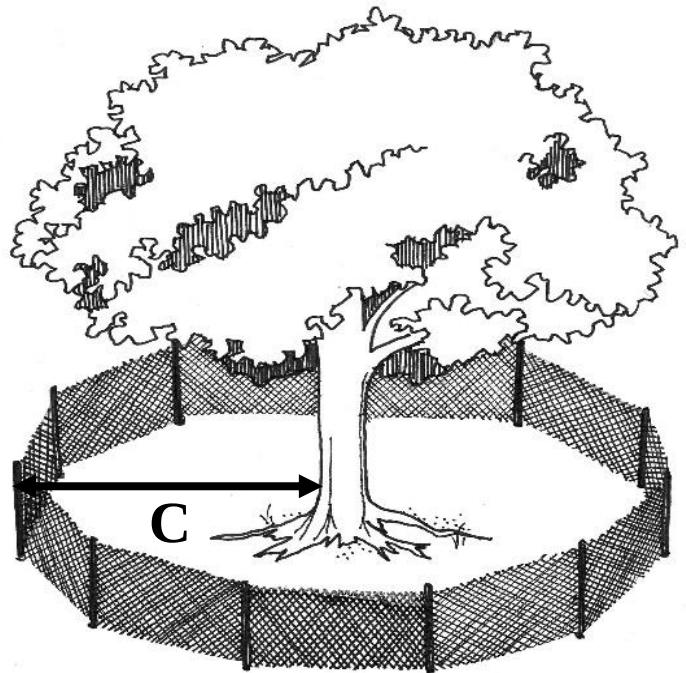

**B:**

Chain link shall be minimum of 6 feet in height.

**C:**

Tree protection barricades shall be installed a minimum of 20 feet radius around the tree.

<sup>1</sup> A Grand Tree, as defined in the City of Sarasota Zoning Code Article II, Division 2, Sec. II-201 *Tree protection related definitions* is a “Live Oak (*Quercus Virginiana*) or similar nomenclature for species, consisting of a tree and its root system whose single trunk or combined trunk DBH size is 24” (addition of all trunk DBH for a multi trunk tree) or greater”.

<sup>2</sup> For more information on tree protection, please see City of Sarasota Zoning Code, Section VII-312 *Protection of trees during development*, viewable online at [www.Municode.com/Library/FI/Sarasota/Codes/Zoning](http://www.Municode.com/Library/FI/Sarasota/Codes/Zoning)
