

NOTICE OF PUBLIC MEETING

The City of Sarasota is excited to announce the launch of its Traffic Calming Plan and invites all residents to participate in a town hall meeting designed to gather public input and address speeding concerns in the City on **Wednesday, February 19, 2025**. The meeting will take place at the City Commission Chambers, Room 101, 1565 1st Street, Sarasota, FL, from 5:30 p.m. to 7:30 p.m.

The City encourages residents from all neighborhoods to attend and provide feedback as we work collaboratively to make Sarasota's streets safer for everyone.

WHAT IS TRAFFIC CALMING?

Traffic calming is a set of roadway treatments engineers can add that alter driver behavior and reduce the negative impacts motorists can have on pedestrians and cyclists. Traffic calming can help to reduce speed, vehicle crashes, and in turn, increase pedestrian and bicyclist usage.

These measures can include:

- Horizontal Deflections (roundabouts, traffic circles)
- Vertical Deflections (speed tables, raised intersections)
- Street Width Reduction (median islands, on-street parking)
- Routing Restrictions (median barriers, splitters)

Education and enforcement are also considered to be traffic calming measures but should be used in conjunction with physical measures when possible.
